Leatherface 2013 cast

Texas Chainsaw 3D is the 2013 legacy sequel to Tobe Hooper's horror classic, and here's a guide to the movie's cast and characters. Here's a cast and character guide to the horror sequel texas chainsaw 3D. The Texas chainsaw massacre is director Tobe Hooper's grueling, relentless horror classic that introduced audiences to horror icon Leatherface. Despite the cultural influence the original took on Hooper twelve years ago in the Texas Chainsaw Massacre 2, which was a more dark comedy with ties to the gore set by Tom Savini. The franchise has even more twisted consistency than Halloween, with each sequel seemingly ignoring the latter. The third and fourth films followed the 2003 Texas chainsaw massacre remake by producer Michael Bay, which in turn was given a prequel to the Texas chainsaw massacre: The Beginning. The Texas Chainsaw 3D was an early adopter of the legacy sequel format, acting as a direct sequel to the 1974 original and ignoring everything else. The last entry was Leatherface, a 2017 prequel to both the original and the Texas Chainsaw 3D. Continue scrolling to keep reading Click the button below to start this article in quick view. This is the seventh installment in the Texas Chainsaw Massacre franchise and was presented in 3D. The film serves as a direct sequel to the 1974 film Texas Chain Saw Massacre and was originally intended as the latest chapter in the franchise (ignoring the events of subsequent installments). Movie stars Alexandra Daddario, Dan Yeager, Trey Songz, Tania Raymonde, Scott Eastwood, Thom Barry, Paul Rae and Bill Moseley, along with Gunnar Hansen and Marilyn Burns, who had appeared in the original 1974 film. The story focuses on Heather, who discovers that she was adopted after learning about the legacy of a long-lost grandmother. He then takes a road trip with his friends to collect the legacy, unaware that it involves his cousin, Leatherface. The Texas Chainsaw 3D was released on January 4, 2013, and grossed a \$47.2 million budget of \$20 million, and received negative reviews from critics. It was also the last film both Burns and Hansen played before they both died in 2014 and 2015 respectively. The prequel, which takes place before the original 1974 film titled Leatherface, was released in 2017. A plot after the events of the original film, the city sheriff arrives at Sawyer's house demanding Leatherface surrender. The family initially refuses, but eventually performed. The people of Newt, Texas, led by Mayor Burt Hartman (Paul Rae), then arrive and burn down the murderous Sawyer clan in the Avengers Act of Justice. Arsonists have been declared heroes of the community and the entire Sawyer family has been killed. However, a child with a burn mark on his chest has been found by one of the townspeople, Gavin Miller, who immediately murders his dying mother Loretta Sawyer. Gavin and his wife Arlene take the child into their care and raise him as their daughter. In the future, Heather Miller (Alexandra Daddario) receives a letter informing her that her grandmother Verna Carson has accepted much to his surprise. When he steps on his parents about it, he discovers that he was adopted by the family of Newt, Texas. Heather, her boyfriend Ryan (Trey Songz), her best friend Nikki and Nikki's boyfriend Kenny travel to their grandmother's home to collect her legacy. Along the way, a group picks up a hitchhiker named Darryl. Upon arrival, Heather has received a letter from Verna's lawyer that she will not read. When the team investigates the house, they decide to stay the night. Heather and her friends leave to buy food and supplies, leaving Darryl behind to take care of the house. Darryl starts stealing valuables and discovers a metal door in the winery that he can't open; when he tries to enter he is killed by Leatherface (Dan Yeager). While grocery shopping, it has become clear that Nikki and Ryan have slept together. Heather meets with Aseaste Carl (Scott Eastwood) and Mayor Burt Hartman. Heather and her friends are returning to find the house looted. While Kenny's cooking dinner, he goes down to the basement where Leatherface despises him on the hook. Nikki tricks Ryan into going outside the barn, then seduces her. Heather finds her grandmother's crumbling body upstairs and attacks Leatherface in the kitchen, but she manages to escape when she kills Kenny with a chainsaw. Heather runs to the graveyard outside the house and hides the coffin that Leatherface catches through. Nikki and Ryan draw attention to Leatherface, while Heather gets in the van and picks up her friends. Using its chainsaw, Leatherface cuts through one of the tires that causes the van to crash, killing Ryan's impact. After Nikki's wounding, she drives Heather to a nearby carnival, where Deputy Carl patrols the garden. At the police station, Heather begins digging through the files of the Sawyer family, and learns about the family's murderous history and how they were killed. Sheriff and Hartman sent an officer to investigate Carson's mansion. Over the phone, the officer reports his findings. She finds Nikki hiding in the freezer, but accidentally shoots her in the head before she himself is killed by Leatherface. Leatherface skins the flesh of the officer's body and uses it to create a new meat mask. The officer's findings are enraged, Hartman vows to stop the rest of Sawyers. Heather leaves the station and meets her lawyer at the bar. He tells her that Leatherface is his cousin who survived the farm fire. Heather escapes the bar when Hartman finds her and the deputy collides in Carl's patrol car. When they leave, Carl reveals himself as Burt's son. He kidnaps her and takes her to the Sawyer family's old slaughterhouse, lies her up and starves her. Listening to the dead officer's police radio, Leatherface finds out heather's whereabouts and goes to the slaughterhouse to kill her. Before she's able to do that, she sees Sawyylg's mole on Heather's chest and removes her vomit. Heather tells him that is his long-lost cousin, and he will release him. Hartman and his friend Ollie then attack from behind Leatherface. Heather's taking the opportunity to escape. As Hartman and Ollie prepare to kill Leatherface by throwing him into a meat machine, Heather returns having a change of heart, killing Ollie and throwing Leatherface into his chainsaw. The sheriff arrives in combat, but he hesitates to stop Staal from killing Burt. Leatherface is using his motor boat to force Hartman to die at the meat mill. The sheriff's going to let Heather and Leatherface go. Later, Leatherface and Heather returned to the Carson Estate, where Heather reads a letter to Verna. It informs her that her real name is Edith Rose Sawyer, that Leatherface lives in the basement behind a metal door and that she will protect him for the rest of her life, but she also insists that his takes care of him in return. The skin face finally re-buried Verna's body. Heather accepts how Leatherface's mental state forced her to commit her crimes and kindly accepts her as her only family. In the post-credits scene, Heather's adopted parents appear at Carson's real estate to visit Heather, intending to greedily share her property. When they're waiting at the door, Leatherface comes through the door with a chainsaw in hand. [5] Production This part needs to be expanded. You can help by adding it. (July 2016) In January 2007, Platinum Dunes executives Bradley Fuller and Andrew Form announced that the company would not produce the third film in the Texas Chainsaw Massacre reboot franchise. In October 2009, it was announced that Twisted Pictures and Lionsgate Films would try to buy rights to the franchise from New Line Cinema, where Twisted Pictures and Lionsgate are distributing. According to Variety writer Michael Fleming, the plan was to create a modern film 3-D, with Stephen Susco writing the script. A contract with rightholders Bob Kuhn and Kim Henkel would be for several films. In May 2011, Lionsgate announced that it was working with NU Image to produce a new Texas chainsaw massacre, and that John Luessenhop would direct the film. Mazzocone would operate as a producer, with production started in 2011. Mazzocone also announced that the story would pick up where Tobe Hooper's original film ends. [12] Adam Marcus and Debra Sullivan were brought in to write a letter. Kirsten Elms and Luessenhop worked on rewrites and script polish. [13] Neither Twisted Pictures nor NU Image had credits for the finished film, which had to be reaped again before release because it received an NC-17 rating due to excessive gore during its initial filing with the MPAA. [14] Reception Critical response This section needs an extension. You can help by adding it. (May 2015) The film was panned as a plot of holes and controversy for the original film. On Rotten Tomatoes, the Texas Chainsaw 3D has an approval rating of 19% based on 79 reviews with an average rating of 3.56/10. The site's critical consensus is as follows: As an ugly and cynical attempt to rebrand Leatherface as a horror anti-hero, Texas Chainsaw 3D is a bold move for the franchise. Metacritic has a film score of 31 out of 100, based on 17 critics, which generally shows unfavorable reviews. [16] The audiences surveyed by CinemaScore gave the film an average score of A+ to F on the C+ scale, with 63% of filmmakers under the age of 25. [2] IGN editor Eric Goldman wrote: Some hilarious 3D-aided jump-scares aside, texas chainsaw 3D is a general and ridiculous attempt to follow the original. [17] At the Box Office Opening Night, the Texas Chainsaw held in first place, earning about \$10.2 million at the North American Box Office. [18] The film finally took place in first place all weekend, making \$21,744,470 as of March 2013 earned \$39,093,317 worldwide. On May 14, 2013, the film appeared on DVD and Blu-ray/Blu-ray 3D, which includes a digital copy of ultraViolet, along with multiple commentary and featurettes, with an alternative trailer for the opener. In March 2015, Hollywood collections unveiled a 20-inch Leatherface action character based on a figure depicted by Dan Yeager. [21] Prequel It Too: Leatherface (2017 film) In January 2013, it was revealed that due to the film's financial success, Millennium Films began planning a sequel to a film called Texas Chainsaw 4, which was scheduled to begin filming later in 2013 in the state of Louisiana. [23] [23] Avi Lerner, chairman of Millennium Films, noted that the project was brought to him by Christa Campbell and Latí Grobman and that Millennium had signed up to the production, with the Lions distributing the finished product. [24] [25] Executive producer Mark Burg explained that the sequel was announced prematurely and was not allowed: Carl [Mazzocone] and Main Line Pictures control the rights, no matter what Millennium says. Millennium just sold out foreign rights, and they won't tell us when the sequel is ready to do so. The manuscript was developed by Carl, me and writer/director John Luessenhop. Maybe they're looking to sell something in Berlin, but they don't have the right to announce a sequel. Lionsgate and Millennium Films were finally released in 2017. As time was taken to release it, studios lost the right to make future Texas Chainsaw Massacre movies. [27] Links * TEXAS CHAINSAW (18). British Film Classification Council.
